

Ventura County STEM Network needs our help!

Engineers & Computer Science people are needed to tell elementary(K-5) school students about themselves and their career!

The VC STEM organizers have made it easy for us to do this. Because of the restrictions on visitors in many schools, this will be realized through video links from your computer to the classroom. If you can spare an hour or so of your time, there are 3 timeslots when you can choose to talk with the students.

VC STEM believes that “Kids can’t be what they can’t see.” Please help VC STEM & IEEE show kids what they can be!

For more info on this opportunity please contact Dr. Phil Hampton at vcstemmentor@gmail.com by April 6, 2018

Thank you!
