

GIRLS MAKE STEM WITH

Middle school girls use science, technology, engineering and math to care for the planet

Saturday, October 9, 2021 – 10:00 AM to 2:30 PM
Thousand Oaks

Event is free of charge.
Registration required.
Register today at
www.ieee-bv.org/stem
Lunch will be provided.

IEEE

GIRLS CREATE
TECH
TO IMPROVE
THE LIVES
OF OTHERS

Girls in middle school will become scientists and engineers for a day. They will explore how science, technology, engineering and math can help sustain our planet. Students can choose from workshops on chemistry, circuits, ham radio, light, robotics, solar energy, or math and numbers.

Parents may attend a concurrent program with a mix of hands on experiences that can be duplicated at home, and will discover the future that awaits their daughters in Science, Technology, Engineering and Math (STEM).

Please Note

- Doors open at 9:30 AM
- Masks are required

SHARE IDEAS
AND BUILD
PROJECTS
THAT
IMPROVE THE
LIVES OF
YOUR FAMILY
AND FRIENDS

This event is supported by women and men in STEM professions from the following organizations

IEEE Foundation
